How STV works
(Single Transferable vote)

If your candidate wins ... The proportion of your vote not needed is transferred to your next choice. (e.g. If your candidate gets twice as many votes as needed, ½ vote is transferred to your second choice)

If your candidate loses ... Your vote (or portion) is transferred to your next choice (See over)

STV- No More Wasted Votes

On Tuesday May 12, you will be able to vote on a new voting system – STV (Single Transferable Vote).

How STV Works: You have one ballot where you rate your favorite candidates according to your preferences. Each riding will have multiple seats (so candidates of one party will still have to compete against each other)

(see other side) Reuse: pass this on to a friend.

For More Info: http://www.stv.ca

Produced by Stephen Samuel 778 861 7641 stv@VoteTheVote.com
